

Forgot Password

If you are having trouble remembering your password on the main login page, you can click the [Forgot your password?](#) link as shown in the screenshot below.

The screenshot shows the SEYSOFT login interface. At the top center is the logo "SEYSOFT". Below it are two input fields: "Email Address:" and "Password:". A blue "SIGN IN" button is positioned below the password field. At the bottom left of the form area, there is a blue underlined link that reads "Forgot your password?".

Clicking that link will bring you to a new page where you must enter in the email address you used to sign up with. Below is a screenshot for reference. If you type in the correct email address you used to make your account, you will then be sent an email with instructions for resetting your account password. Be sure to give that email up to an hour to reach your mail box and be sure to check the spam folder. All emails come from our support@seysoft.co account. The email instructions will provide a unique link for you that will allow you to reset the password for your account.
